A separate league table will be created for Branch and Government Assisted deals if they are included in the deal type criteria. These reports will be ranked by deposits transferred unless rank by number of deals is specified.

In the event advisers merge or an adviser is purchased by the parent of another adviser, S&P Global Market Intelligence retroactively adjusts historic rankings to the single, highest-level adviser. If the buyer is already receiving credit for a particular deal, it will not receive additional credit following the merger.

Deal Valuations are as of Agreement Date.
