- Structuring of private equity funds to comply with the ERISA plan asset regulation, including fund structuring to meet the venture capital operating company or real estate operating company requirements

**Representative Matters**
- Represented a large, publicly traded multinational corporation before the Pension Benefit Guaranty Corporation (PBGC), first by negotiating a multimillion-dollar reduction in additional pension funding requirements occasioned by a plan shutdown and next by being among the first to act in obtaining a complete elimination of such requirements after the issuance of new enforcement guidance
- Assisted a large private company in the termination of its pension plan on an expedited review basis with the Internal Revenue Service (IRS) and the PBGC and obtained approval for the offering to current retirees of a novel, lower-cost, lump-sum payout of their benefits
Assisted a large, publicly traded company with the merger of numerous complex pension plans into a single plan and the subsequent IRS approval of the merged plan, resulting in cost-savings and operational efficiencies for the client.

Advised a large, privately held financial entity in the design and operation of its executive compensation programs for compliance both with the Code section 409A deferred compensation rules and the special TARP executive compensation rules.

Represented a private equity fund in a $100+ million buyout of large, publicly traded publishing and entertainment company regarding the ERISA venture capital operating company requirements for both the fund and several private fund investors.

Advised a large, publicly traded company in the negotiation and design of a unique deferred compensation arrangement with its key executive allowing for the tax-advantaged additional deferral of significant compensation that would otherwise have become payable and taxable to the executive.

Advised major university healthcare plan in negotiations involving the sale of the university’s Health Maintenance Organization to a private insurer.

Successfully defended complex pension case in which claimants sought benefits from both and hourly and salaried pension plan for the same years of service.

Advised underwriter’s counsel in raising $1.4 billion to relieve underfunding of the City of Detroit’s pension plans.

Advised independent bond counsel in raising $800 million for Oakland County to pre-fund its retiree medical benefit obligations.

Represented major public company in successfully negotiating with the IRS to have millions of dollars of additional pension fund contributions be subject to tax loss carryforward treatment.

Defended public company from benefit claims of former executive who had been convicted of embezzling from the company.

Represented major public company in 4062(e) negotiations with the PBGC.

Represented client in designing a plan and negotiating it with the union, the PBGC, and a multiemployer pension plan (in which it was the last remaining employer) to have the client’s plans assume the liabilities of the multiemployer plan in a way that would save benefit costs going forward and avoid withdrawal liability.
