Honigman's Health Care practice group is recognized nationally as a leader in healthcare law, as reflected by our numerous professional recognitions and publications, as well as the significant amount of leadership positions held by our attorneys in state and national healthcare organizations. In addition to handling hundreds of transactions, many of our Health Care attorneys have earned advanced degrees in medical, health administration, and business disciplines. This background, coupled with our knowledge and experience, enables us to craft legally compliant and strategic solutions that are pragmatic and economically sound and add value.

Honigman's Health Care practice has the advantage of being part of a full-service law firm that effectively represents healthcare clients in today's highly complex business, organizational, and regulatory environments. Honigman provides value to its clients by offering high-quality legal services not only from experienced healthcare attorneys, but also from attorneys highly accomplished in practice areas such as antitrust, bankruptcy, construction, employee benefits, insurance, intellectual property, labor and employment, litigation, real estate, environmental, securities, and tax and real estate tax.

Our approach to legal services is first and foremost client focused. We pride ourselves on actively listening to our clients' strategic business goals and concerns and collaborating with them to achieve the best business solutions as efficiently as possible. We monitor and analyze daily developments in the healthcare industry and share our insights with clients to enable them to make informed, timely, and compliant business decisions.

Honigman’s Health Care practice group serves organizations and individuals who provide, arrange, or pay for healthcare services across the nation, including, for example, localities in California, Connecticut, Florida, Idaho, Illinois, Indiana, Kentucky, Michigan, Ohio, and Pennsylvania. Representative Matters

• Advised clients in transactions across the country among any combination of nonprofit, for-profit, Catholic, acute care, critical access, municipal, and specialty hospitals; nursing homes; long-term care facilities; physician groups; and clinical labs and ancillary providers, including affiliations, mergers, acquisitions, divestitures, whole hospital leases, joint ventures, and joint operating agreements

• Assisted in establishing a new specialty hospital from corporate formation to application for tax-exempt status, certificate of need application, Medicare, and other payor enrollment and licensure

• Assisted health systems in connection with developing clinically integrated networks, hospital physician alignment, and ACO participation

• Assisted physician clients on intellectual property development and investment

• Assisted clients with the establishment and expansion of ownership in ambulatory surgery centers by hospitals, investor groups, and physicians, including corporate formation, state licensure, and Medicare enrollment

• Represented acute care, long-term care, and specialty hospitals, including cancer centers, municipal hospitals, and critical-access hospitals, in day-to-day operations, contracts, joint ventures, and other transactions
Represented hospitals and health systems in nationwide Medicare payment appeals

Appealed denial of substantive Medicare payments to hospitals for medical education

Defended provider in connection with a major third-party payment audit

Represented large and small health providers in bond financing transactions

Responded to OIG and other government subpoenas and compliance investigations, *qui tam* actions, and discovery requests and effectively negotiated resolution

Provided compliance advice on the Stark Law, Anti-Kickback, HIPAA, tax, human subjects research, and other regulatory matters

Facilitated HIPAA compliance, including updates to Business Associate Agreements, Notice of Privacy Practices, Policies and Procedures, Risk Analysis, Breach Notification, and Enforcement Actions

Advised small and large physician groups on employment contracts, affiliation, buy-ins, buy-outs, and participation in clinically integrated networks and ACOs

Advised large physician group on strategic plans in response to health care reform initiatives

Created research consortium consisting of more than a dozen community hospitals and negotiate research contracts between specialty hospitals, pharmaceutical companies, and government granting bodies

Negotiated complex health information technology contracts implementations and outsourcing arrangements, including for electronic health records

Counseled new medical school regarding clinical affiliations to ensure educational experiences for students

Served as borrower’s counsel for healthcare systems in connection with bond financings where the proceeds are used to acquire another hospital or healthcare system or for other capital needs

Represented healthcare clients in connection with their commercial loan agreements with lenders

Established relationships with lenders interested in lending money to borrowers for healthcare ventures
